

CROSS49 SUPPLIES & RENTALS SANDBLAST UNITS

PIPELINE • CONSTRUCTION • UTILITIES • INFRASTRUCTURE

When the job calls for real blasting power, Cross49's mobile sandblast trailers are ready to roll. Specially designed by Cross49 so you get gear that works as hard as you do. Quick to set up, easy to move, and built to keep up in the harshest conditions.

Whether you are out on a remote right-of-way, deep in pipeline country, or tackling a big cleanup job, you get a self-contained setup that brings serious muscle wherever you need it.

EACH UNIT INCLUDES:

185 or 250 CFM Air Compressor: Dependable, high-output air supply for consistent blasting performance

3.5 Cubic Foot Blast Pot: Built for efficiency and long blasting sessions

250 CFM Cooler: Keeps air dry for optimal media flow and quality results

Heavy-Duty Sandblasting Hose & Nozzle: Rugged components that can handle the toughest jobs

Mounted on a Road-Ready Trailer: Complete with lights and everything you need to haul it to site
