

# CROSS49 SUPPLIES & RENTALS RISE TAPE

CONSTRUCTION • PIPELINE • POWERLINE

## **RISE TAPE - BARRICADE BAGS**

Designed for the construction and utility industries, Rise Tape creates safety barriers for worksites, particularly in hazardous areas where workers are at risk. Made using a combination of polyester and nylon synthetic material, for exceptional strength and durability and perfect for withstanding harsh environmental conditions.

Prefabricated and conveniently secured to a durable waterproof bag allows for quick installation compared to conventional options to save time and increase jobsite efficiency.

Each bag contains 250' of Rise Tape with 15" orange reflective flags sewn at 12" intervals and secured to a durable waterproof bag.

- Each bag weighs 7.5lbs.
- 2500lb mainline breaking strength.
- Customizable.
