RAILWAY

MINING

RENEWABLES

OIL & GAS

DISASTER RELIEF

CIVIL CONSTRUCTION

SUPPLY SALES

Cross Country Canada carries an extensive inventory of products, tools and supplies for every industry. Not in stock? Don't worry! Our helpful team will make sure you get what you need quickly and on budget.

Abrasive & Cutting Tools

Coatings

Chemicals & Supplies

Containment & Spill Control

Contractor Supplies

Geosynthetics

Hand Tools

Health & Safety

Hose, Valves & Fittings

Lifting & Rigging

Material Handling

Pigging Products

Pipe Testing Equip. & Parts

Power Tools & Parts

Welding Supplies

Proudly Supplying High Quality Products From:

EQUIPMENT

RENTALS / SALES

Cross Country Canada offers a large selection of first-rate heavy equipment and accessories from leading manufacturers.

Dozers

Engineered for demanding work, the durable Cat® Dozer is well suited to keep material moving with high performance, solid reliability and low operating costs.

Excavators

Caterpillar® Excavators offer outstanding performance, control, high stick and bucket forces, impressive lift capacity and a comfortable operator station.

Flat Bed Tractors

State of the art Flat Bed Tractors with accessories including hydraulic boom, welding station, dumper, and more.

Pipe Bending Machines

Cross Country Canada offers a variety of Pipe Bending Machine rentals with the ability to bend pipes from 6" to 60".

Pipelayers

Our fleet of Pipelayers are the standard of the pipelining industry and are designed to withstand the most demanding pipeline conditions.

Air Curtain Burners

The most cost-effective, environment-friendly, portable wood waste combustion systems on the market.

MeriCrushers

Reliable, efficient and cost effective land clearing equipment. Superior engineering enables mulchers to work effectively above and below the ground level.

Light Tower Pump Combos

From creek bypasses to ground water control our portable pumping solutions can help with any dewatering application.

Portable Wash Pads

Can be positioned with no extensive plumbing and construction needed and have a capacity of 150,000lbs SWL and a fluid capacity of 3,500 gallons.

Power Generators

Available in portable and mounted options, they provide the power and mobility you need while enduring harsh weather conditions and long hours.

Tack Rigs

The PM 11 crane is designed to handle a wide variety of welding shacks. The GWD 90 Weld Deck is constructed at a width of 8' 6" for moving as a legal width load.

Tesi Generators & Coils

Cross Country Canada has a complete line of Tesi induction coils from 8" to 54" as well as a comprehensive fleet of induction heating generators.

ACCESSORIES & SPECIALIZED EQUIPMENT

Internal Self-Contained Mandrels

Cross Country Canada's self contained bending mandrels are completely remote control operated. Ranging from 30-48", each mandrel is equipped with a tier 4 engine to drastically reduce emissions and noise.

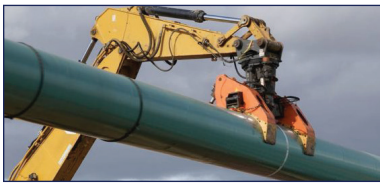

Padding Buckets

Our Padding Buckets can process many types of material such as topsoil, excavated and waste soil, clay, bark, compost, biowaste, demolition and construction waste, milled asphalt, glass, coal, oil shale, lime stone and several other materials.

Pipe Cradles

Cross Country Canada has a wide range of roller type pipeline cradles in various cradle assemblies for pipe sizes 6" (168MM) through 60" (1524MM).

Deck Hands

Deck Handlers make loading and unloading joints of pipe an easy, safe one man job. With a red/green light and auto clamping feature it takes the guesswork out of clamping on to a piece of pipe safely.

Vacuum Lifters

Owners and workers looking for safe and efficient material handling solutions in the pipe, oil, gas, utility and road construction industries can lift with confidence from behind the controls of a Vacuworx Lifting System.

Sand Blast Decks

Cross Country Canada Weld and Sand Blast decks are easy to load onto any flat deck carrier for any welding or blasting application.

HDD Pipe Rollers

Horizontal Directional Drilling (HDD) Rollers keep pipe supported as it travels smoothly toward its destination, eliminating the need for manual transport.

Additional Tools & Equipment Include:

- » Air Lift Bags
- » Beveling Machines
- » Cold Cutting Machines
- » Common Pipeline Tools
- » Compressors
- » Demagnetization Coils
- » Fabrication Pipe Rollers
- » Heating Coils
- » Holiday Detectors
- » Pigging, Test, Pull Heads
- » Pipe Calipers
- » Pipe Clamps
- » Propane Torches
- » Road Ramps
- » Welding Shacks
- » AND MUCH MORE...

WATER MANAGEMENT

RENTALS / SALES / SERVICE

Specializing in Ground Water Control, WellPoint Dewatering, Sewer & Creek Bypasses, Industrial, Municipal & Civil Water Management, Sediment Control, Environmental Filtration and Pigging Equipment.

Dewatering Equipment

High Velocity Split Case Pumps

Triplex & Quintuplex High Pressure Pumps

Pig Launchers and Receivers

Vac Assist Centrifugal Pumps

Hydraulic Submersible Pumps

High Head Pumps

Electric Submersible Pumps

Sound Attenuated Pumps

Filter Trailers

Fish Screens

Diffusers

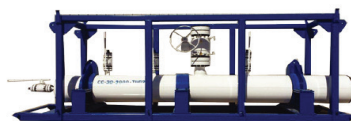

Pipeline Hydrostatic Testing Systems

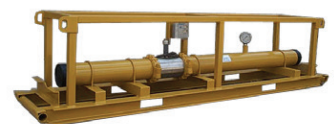

Low Head, High Head, and Pressure Test Pump Units

Hydrotest Headers

Flow Meters

GEOSYNTHETICS

SALES / SUPPLY

Geosynthetics are a range of man-made products used to stabilize terrain and solve civil engineering problems.

MSE Walls & Slopes

Mechanically Stabilized Earth Walls are engineered wall systems comprised of alternating layers of backfill and geosynthetic reinforcement. These systems make for more efficient use of limited land resources by allowing steeper, stable slopes that are also aesthetically pleasing and technically sound.

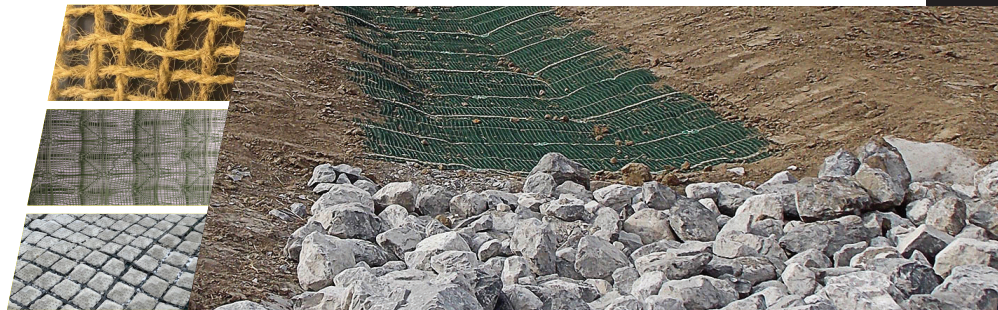

Roads & Rail

When compared to traditional road and rail construction methods Cross Country's geosynthetics can reduce the use of natural resources, accelerate construction schedules and reduce maintenance costs.

Erosion & Sediment Control

From Turf Reinforcement Mats to Straw Wattles Cross Country has the products and expertise to protect your jobsite and our waterways.

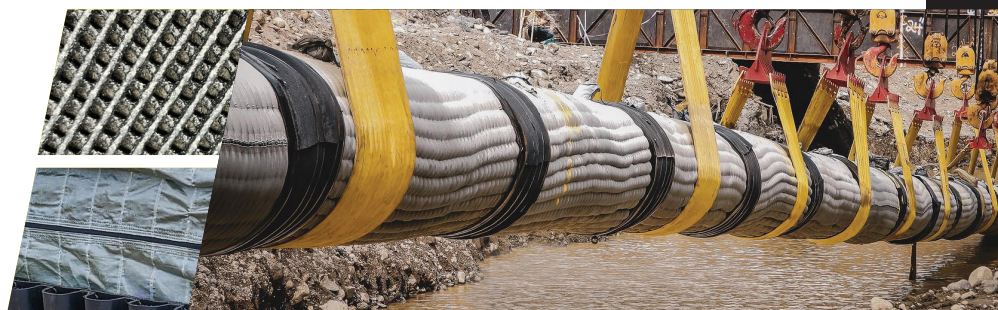

Drainage

If you have drainage challenges like flood mitigation, foundation waterproofing or groundwater conveyance, Cross Country Canada has expertise and solutions that will make sense for our environment and your budget.

Pipeline

Cross Country Canada offers a specialty line of pipeline protection products. Our heavy-duty extruded Grid-Guard polyethylene mesh can be installed on both steel and plastic pipelines, while the efficient and quick-to-install Incomat concrete mattress system, protects pipelines against buoyancy, uplift and external impacts.
